 Github: <https://github.com/GURUKARTHICK-NS14>

 9025454639  gurukarthicksanty123@gmail.com  Coimbatore, Tamil Nadu.

Professional Summary:

Final-year Computer Science (Cyber Security) student with a strong foundation in Java, Python, and full-stack web development . Solid grasp of data structures and problem-solving, with hands-on project experience building functional tools and applications. Quick learner with a security-aware mindset, adaptable to fast-paced development environments.

Academic Qualification:

- **B.E. CSE (Cyber Security)** **CGPA :8.8**
Pursuing B.E. CSE (Cyber Security), Final Year at **Dr. N.G.P. Institute of Technology**
 - **Higher Secondary School (12th grade)** **Scored 87.5%**
Premier Vidhyaa Vikash Matriculation Higher Secondary School.
-

Technical Skills:

- **Tech Languages :** Java, Python
- **Database:** MySQL
- **Web Development:** HTML, CSS, Javascript, React.
- **Operating Systems:** Kali Linux, Windows
- **Version Control:** Git, GitHub
- **Tools:** WPScan, Nmap, ZAPProxy, Subfinder, Amass, Nessus ,Burp Suite, Metasploit, Wireshark.

Linguistics:

- Tamil
- English

Professional Skills:

- Effective Communication, Team Collaboration, Attention to Detail, Adaptability and Quick Learning.

Area of Interest:

- Ethical hacking, VAPT, Network Security, SOC Analyst, Full Stack Development, Software Development.
-

Projects:

1) Shadow IT Risk Mitigation Using Network Traffic Analysis:

- Designed a solution to monitor network traffic and identify unauthorized application usage across the network.
- Implemented automated alerts and risk monitoring features to support security policy enforcement.
- Github:<https://github.com/GURUKARTHICK-NS14/SHADOW-IT-RISK-MITIGATION>

2) Alcohol Detection and Engine Cutoff System:

- Built an IoT-based system to detect alcohol levels in drivers and prevent vehicle ignition when safety limits were exceeded.

- Integrated automatic engine shutdown and SMS alert features to improve road safety.
- Github: <https://github.com/GURUKARTHICK-NS14/Alcohol-Detection-and-Engine-Cut-Off-System>

3) Password Strength Analyzer:

- Built a Python tool to analyze password strength and estimate password cracking time.
- Created custom wordlists to show how weak password patterns can affect security.
- Github: <https://github.com/GURUKARTHICK-NS14/Password-Strength-Analyzer>

4) Fire Extinguisher Robot :

- Created a smart robot capable of detecting fire incidents and responding automatically.
- Enabled remote monitoring and surveillance features to improve fire safety management.

Internship:

BCBUZZ Technologies Private Limited - Cyber Security Intern

- Assessed 4+ WordPress-based websites for security vulnerabilities using industry-standard tools (WPScan, Burp Suite).
- Identified and documented common vulnerabilities mapped to known CVEs, contributing to structured security reports.
- Applied analytical and systematic testing methodology to real client-facing systems.

Elevate Labs - Cyber Security Intern

- Explored real-world cybersecurity challenges and learned how security assessments help strengthen system protection.
- Applied cybersecurity concepts in practical tasks while improving analytical thinking, problemsolving, and teamwork skills.
- Strengthened problem-solving and analytical thinking through hands-on technical tasks.

Achievements:

- Practical Cyber Security for Cyber Security Practitioners (NPTEL 2025-Scored 90%) **(ELITE+GOLD)**.
- Privacy and Security in Online Social Media (NPTEL 2025 -Scored 72%) **(ELITE)**.
- Cyber Security and Privacy (NPTEL 2024 -Scored 60%) **(ELITE)**.

Certification & Workshops:

- SQL Injection Attacks-(EC Council 2023).
- NM-AU-TNcpl Learnathon-GUVI,Naan Mudhalvan and Anna University-(Learnathon 2024).
- Practical Web Application Security And Testing - (The Taggart Institute 2025).
- Illuminate Entrepreneurship Bootcamp — Dr. N.G.P. Institute of Technology, in collaboration with E-Cell IIT Bombay, 2025 (Innovation & Startup Strategy)
- Participated in CTF-(Cyber Heist 2025).
- The Cybersecurity Threat Landscape-(LinkedIn Learning 2026).
- Microsoft Security Essentials Professional Certificate(Microsoft and LinkedIn Learning 2026).
